

PEOPLE'S MUSEUM

THE PROJECT

The People's Museum Project is the future Louvre of the crypto space.

It is a 3D virtual art gallery where art collectors, investors, and the general public can visit and appreciate unique art from around the world. All artists will share an equal chance to list their art pieces or collections inside the People's Museum Metaverse NFT Art Gallery. At launch, only our art collections will be featured in the art gallery but the gallery will be open to the public very soon after that.

Your 3D character will be able to walk around the spacious Metaverse art museum. While you are exploring and appreciating the art pieces inside the 3D Metaverse Art Gallery, you might discover your next favorite art piece; you'll then be able to purchase it through our NFT marketplace using People's Museum Tokens. With the demand increasing, the People's Museum Tokens will gain great momentum from the positive price action; hence increasing your profits as a token holder.

In the mid-term future, you'll be able to display your art piece for FREE and on-demand within our 3D Art Gallery by holding a certain amount of People's Museum Tokens.

Real Utilities

These are just some highlights of the People's Museum Project:

- Metaverse 3D NFT Art Gallery.
- NFT Marketplace.
- Own NFT drops, hand-crafted by our talented artists.
- People's Museum Tokens (PMT) will be used as our governance currency.
- Future collaborations with renowned artists to hold their NFT collections inside our Metaverse.

PEOPLE'S MUSEUM TOKEN

CURRENT TOKENOMICS

9.5% Buy Tax

- 5.5% ETH rewards
- 2% Metaverse + 3D NFT Art Gallery + NFT marketplace development
- 2% Project Marketing

19.5% Sell Tax

- 13.5% ETH rewards
- 2% Metaverse + 3D NFT Art Gallery + NFT marketplace development
- 2% Project Marketing
- 2% into LOCKED Liquidity Pool

A total of 19% ETH auto-reflections from taxes. We'll gradually decrease the rewards once we reach a high MarketCap so the token becomes more tradeable.

Total Supply: 100 Billion

Initial Liquidity: 5 BNB

Max Wallet: 3.8%

BUT WHY REFLECTIONS AND WHY LAUNCHING ON THE BSC THOUGH?...

There's thought behind everything we do. We're launching on the Binance Smart Chain because of the cheap fees and its large user base. Reflections are certainly to attract early BSC holders and will be paid in ETH because it's currently the king in NFT drops. We'll be preparing our investors for the big jump once we eventually release PMTs and NFTs in the ETH Blockchain and other compatible EVM Networks.

PEOPLE'S MUSEUM TOKEN

ROADMAP

Phase 1:

- Post fairlaunch marketing
- Public preview of the People's Museum NFTs
- Marketing collaboration with Youtube influencers
- Marketing collaboration with Twitter influencers
- Top-Tier Telegram groups calls
- Reaching 700 holders
- Reaching \$300,000 market capitalization
- NFT marketplace platform preview
- Metaverse 3D virtual NFT art gallery preview

Phase 2:

- The official drop of the People's Museum NFT collection
- The official launch of our Metaverse 3D virtual NFT art gallery
- The official launch of the People's Museum NFT marketplace
- Reaching 5,000 holders
- Reaching \$5 million market capitalization
- CoinGecko listing
- CoinMarketCap listing

Phase 3:

- Enabling feature for global artists to list their NFT art pieces & collections on the People's Museum virtual art gallery
- Global Marketing for People's Museum art collections to boost revenue for artists, art investors, and token holders
- Metaverse world expansion
- New features addition into People's Museum 3D virtual art gallery
- Reaching 20,000 holders
- Reaching \$50 million market capitalization
- CEX listings: Gate.io, Kucoin, Binance, Coinbase
